

**CAPE HORN CRUISE SPECIES LIST**  
**19<sup>TH</sup> FEBRUARY – 5<sup>TH</sup> MARCH 2023**  
**WITH EXTENSIONS IN CHILE & ARGENTINA**

**BIRDS**

1. **Greater Rhea** *Rhea americana albescens*  
A couple of sightings from the post-cruise extension to Ceibas. The first a magnificent find by Michel of a very distant bird. A closer sighting of a family group on our last day was much nearer!
2. **Lesser Rhea** *Rhea pennata*  
A seemingly common bird in the Patagonian steppe near Punta Arenas. A few also seen during our excellent day from Puerto Madryn.
3. **Chilean Tinamou** *Nothoprocta perdicaria* **Endemic**  
A single seen by some of the group during our day at Farellones, during the pre-cruise extension.
4. **Spotted Nothura** *Nothura maculosa*  
We had some very nice views at Ceibas during the post-cruise extension.
5. **Elegant Crested Tinamou** *Eudromia elegans*  
At least 5 seen near the Valdes Peninsula.
6. **Southern Screamer** *Chauna torquata*  
The first few were seen at Costanera Sur, but then we saw unbelievable numbers at Ceibas. Driving by some fields there were literally hundreds stood around, plus we had some exquisitely close flybys.
7. **White-faced Whistling Duck** *Dendrocygna viduata*  
Fairly common at Ceibas.
8. **Fulvous Whistling Duck** *Dendrocygna bicolor*  
Just the one sighting at Costanera Sur in Buenos Aires.
9. **Coscoroba Swan** *Coscoroba coscoroba*  
Small numbers present at Estero Mantagua, Punta Arenas, Puerto Madryn, Montevideo, Costanera Sur and Ceibas.
10. **Black-necked Swan** *Cygnus melancoryphus*  
Only seen around the marshes near Montevideo.
11. **Flying Steamer Duck** *Tachyeres patachonicus*  
Fairly common species around Punta Arenas.
12. **Fuegian (Flightless) Steamer Duck** *Tachyeres pteneres*  
4 Strait of Magellan, Región de Magallanes 23.2 and quite a few seen near Punta Arenas 24.2, with a few more around Ushuaia 25.2
13. **Chubut Steamer Duck** *Tachyeres leucocephalus* **Endemic**  
We were very fortunate to find a pair at Punta Tombo NR – a long way south of Puerto Madryn.

14. **Torrent Duck** *Merganetta armata*  
Female along a fast-flowing river as we headed to the El Yeso Valley during the Chile pre-cruise extension on 17.2
15. **Andean Goose** *Chloephaga melanoptera*  
Our only sighting was high up the El Yeso Valley during the pre-cruise extension of a group of 5 birds.
16. **Upland Goose** *Chloephaga picta picta*  
A common sighting at Punta Arenas and in Tierra del Fuego National Park.
17. **Kelp Goose** *Chloephaga hybrida hybrida*  
Several along the first section of the Strait of Magellan, Región de Magallanes, with a sprinkling of sightings as we sailed towards Ushuaia.
18. **Ashy-headed Goose** *Chloephaga poliocephala*  
Just a couple seen near Punta Arenas.
19. **Brazilian Teal** *Amazonetta brasiliensis ipecutiri*  
Fairly common at Montevideo and a daily sighting at Ceibas.
20. **Ringed Teal** *Callonetta leucophrys*  
We really searched for this species and eventually our perseverance was rewarded with 5 on a pond as we drove to Ceibas.
21. **Crested Duck** *Lophonetta specularioides*  
Fairly common species from Punta Arenas, Tierra del Fuego NP and Puerto Madryn.
22. **Silver Teal** *Spatula versicolor*  
Common at Montevideo, Costanera Sur and Ceibas.
23. **Red Shoveler** *Spatula platalea*  
Several seen at Punta Arenas, Ushuaia, Puerto Madryn, Montevideo and Ceibas.
24. **Cinnamon Teal** *Spatula cyanoptera*  
Just the one sighting near Montevideo.
25. **Chiloe Wigeon** *Mareca sibilatrix*  
Several sightings from Punta Arenas, Tierra del Fuego NP, Puerto Madryn and Costanera Sur.
26. **Yellow-billed Pintail** *Anas georgica spinicauda*  
Fairly common species at Punta Arenas, Ushuaia, Puerto Madryn and Montevideo.
27. **Yellow-billed Teal** *Anas flavirostris*  
Another fairly common species from Estero Mantagua, Tierra del Fuego NP, Puerto Madryn, Montevideo and Ceibas.
28. **Rosy-billed Pochard** *Netta peposaca*  
Some nice views at Montevideo and Costanera Sur.
29. **Black-headed Duck** *Heteronetta atricapilla*  
Our first sighting was during our excellent day as we birded south from Puerto Madryn, with more sightings around Montevideo and Costanera Sur.
30. **Lake Duck** *Oxyura vittata*  
We had a large flock on a lake south of Puerto Madryn, with many more seen around Montevideo and Costanera Sur.
31. **California Quail** *Callipepla californica*  
We saw a couple of groups during the Chile pre-cruise extension.

32. **Nacunda Nighthawk** *Chordeiles nacunda nacunda*  
Great views on 2 dates at Ceibas with a fantastic flypast from over 40 birds one evening, which flew low over our minibus.
33. **Little Nightjar** *Setopagis parvula*  
Single at Ceibas, just behind our lodge showed incredibly well.
34. **Green-backed Firecrown** *Sephanoides sephanoides*  
Several nice sightings throughout Chile. The one hovering just a few feet away from us as we were moored close to Amalia Glacier was stunning!
35. **White-sided Hillstar** *Oreotrochilus leucopleurus*  
Nice views of several individuals feeding on flowers in the El Yeso Valley, Región Metropolitana and also another couple at Farellones the next day.
36. **Giant Hummingbird** *Patagona gigas gigas*  
We saw a couple during the Chile pre-cruise extension.
37. **Glittering-bellied Emerald** *Chlorostilbon lucidus*  
Seen daily at Ceibas.
38. **Gilded Sapphire** *Hylocharis chrysur*  
Just a couple seen well near Montevideo.
39. **Guira Cuckoo** *Guira guira*  
A few groups seen on all three days at Ceibas.
40. **Dark-billed Cuckoo** *Coccyzus melacoryphus*  
1 near Montevideo was the only sighting.
41. **Rock Dove** *Columba livia domestica*  
Seen during the pre-cruise extension in the Andes, plus a few more domestic types later in the tour at Montevideo and Buenos Aires.
42. **Picazuro Pigeon** *Patagioenas picazuro picazuro*  
A fairly common sighting around Puerto Madryn, Montevideo, Buenos Aires and Ceibas.
43. **Spot-winged Pigeon** *Patagioenas maculosa*  
Our first was near Montevideo, followed by daily sightings around Ceibas.
44. **Chilean Pigeon** *Patagioenas araucana*  
The only sighting was of a pair at Puerto Montt.
45. **Picui Ground Dove** *Columbina picui picui*  
Common and seen on 7 dates.
46. **Black-winged Ground Dove** *Metriopelia melanoptera melanoptera*  
Several seen during the Chile pre-cruise extension.
47. **White-tipped Dove** *Leptotila verreauxi chalcauchenia*  
Singles seen at Montevideo and Ceibas.
48. **West Peruvian Dove** *Zenaida meloda*  
Only seen during the Chile pre-cruise extension in small numbers.
49. **Eared Dove** *Zenaida auriculata*  
Common.
50. **Plumbeous Rail** *Pardirallus sanguinolentus*  
Just the one sighting from our excellent day around Montevideo.
51. **Giant Wood Rail** *Aramides ypecaha*  
Seen at Costanera Sur and then daily at Ceibas.

52. **Spot-flanked Gallinule** *Porphyriops melanops*  
Singles seen at Estero Mantagua during the pre-cruise extension, followed by further nice views in Montevideo and Costanera Sur.
53. **Common Gallinule** *Gallinula galeata*  
Fairly common species at Montevideo Costanera Sur and Ceibas.
54. **Red-fronted Coot** *Fulica rufifrons*  
Sightings from Estero Mantagua, Puerto Madryn, Montevideo and Costanera Sur.
55. **Red-gartered Coot** *Fulica armillata*  
Several nice looks from Estero Mantagua during the pre-cruise extension, Puerto Madryn, Montevideo and Costanera Sur.
56. **White-winged Coot** *Fulica leucoptera*  
Several present with the previous 2 coot species on a large lake south of Puerto Madryn, with further decent views at Montevideo and Costanera Sur.
57. **Rufous-sided Crake** *Laterallus melanophaius melanophaius*  
Single showed well at the edge of a small lake near Montevideo.
58. **Limpkin** *Aramus guarauna guarauna*  
A few seen at Montevideo and Costanera Sur.
59. **Pied-billed Grebe** *Podilymbus podiceps antarcticus*  
3 at Costanera Sur was the only sighting.
60. **White-tufted Grebe** *Rollandia rolland chilensis*  
Our first were some extremely close feeding birds south of Puerto Madryn, with subsequent sightings from Montevideo and Costanera Sur.
61. **Great Grebe** *Podiceps major*  
2 during the pre-cruise extension at Estero Mantagua, followed by small numbers near Ushuaia and several on a bird-filled lake south of Puerto Madryn.
62. **Silvery Grebe** *Podiceps occipitalis occipitalis*  
2 at Puerto Madryn were the only ones.
63. **Chilean Flamingo** *Phoenicopterus chilensis*  
A few sightings from Punta Arenas, Puerto Madryn and Montevideo
64. **Snowy Sheathbill** *Chionis albus*  
2 distant sightings as we sailed towards Ushuaia.
65. **Magellanic Plover** *Pluvianellus socialis*  
This was a 'must see' species and during our exciting day from Punta Arenas we saw 2 individuals at a large lake, but they took some finding.
66. **Magellanic Oystercatcher** *Haematopus leucopodus*  
We saw a handful sailing along the Strait of Magellan and a few around Ushuaia.
67. **Blackish Oystercatcher** *Haematopus ater*  
Several present along the rocky shoreline at Cormorant Rock, Reñaca, Región Viña del Mar during the Chile pre-cruise extension. During the main cruise we saw several around Ushuaia (a few standing next to the King Penguin!) and Puerto Madryn.
68. **American Oystercatcher** *Haematopus palliatus palliatus*  
Quite a few were around Cormorant Rock, Reñaca, Región Viña del Mar on the pre-cruise extension, followed by sightings from Puerto Madryn and Montevideo.

69. **Black-necked Stilt** *Himantopus mexicanus*  
Fairly common species around and on the post-cruise extension to Ceibas.
70. **Southern Lapwing** *Vanellus chilensis*  
Common and seen on 10 dates throughout the tour.
71. **American Golden Plover** *Pluvialis dominica*  
5 on a beach near Montevideo but we saw a massive flock of several hundred at Ceibas, which was quite a spectacle.
72. **Collared Plover** *Charadrius collaris*  
Just a pair at Ceibas at the same lake as our only Ringed Teal on the post-cruise extension to Ceibas.
73. **Two-banded Plover** *Charadrius falklandicus*  
Very nice view in the Patagonian steppe of several individuals near Punta Arenas, Chile.
74. **Rufous-chested Plover** *Charadrius modestus*  
We had to drive about 130kms inland from Punta Arenas where we found at least 6 individuals, associating loosely with Tawny-throated Dotterel and Least Seedsnipe. Quite a sight!
75. **Tawny-throated Dotterel** *Oreopholus ruficollis ruficollis*  
Amazing numbers of this much-wanted species in the Patagonian steppe near Punta Arenas, Chile. The first flock was about 40 individuals, with at least 2 larger flocks seen further inland. What a cracker!
76. **Diademed Sandpiper-Plover** *Phegornis mitchellii*  
We eventually found a single bird in the marshes high up the El Yeso valley. It wasn't far from the main track and we watched it for quite a long time as it seemed to be resting from the strong wind. A strong contender for 'bird of the trip'.
77. **Wattled Jacana** *Jacana jacana jacana*  
Fairly common sighting from the marshes of Montevideo, Costanera Sur, and Ceibas.
78. **Grey-breasted Seedsnipe** *Thinocorus orbignyianus*  
El Yeso Valley produced the only sightings of at least 5 birds during the Chile pre-cruise extension.
79. **Least Seedsnipe** *Thinocorus rumicivorus*  
Amazing numbers of this species as we drove across the Patagonian steppe near Punta Arenas. Also quite a few in the steppe south of Puerto Madryn.
80. **Upland Sandpiper** *Bartramia longicauda*  
We saw a few at Ceibas during the post-cruise extension.
81. **Hudsonian Whimbrel** *Numenius hudsonicus*  
2 Cormorant Rock, Reñaca, Región Viña del Mar during the pre-cruise extension and another couple at Puerto Montt, Región de los Lagos during the main cruise.
82. **Hudsonian Godwit** *Limosa haemastica*  
Fairly common at the marshes near Montevideo.
83. **Ruddy Turnstone** *Arenaria interpres morinella*  
Only seen on the rocky shoreline of Cormorant Rock, Reñaca, Región Viña del Mar before the main cruise began.

84. **Surfbird** *Calidris virgata*  
5 at Cormorant Rock, Reñaca, Región Viña del Mar were the only ones of the entire tour.
85. **Baird's Sandpiper** *Calidris bairdii*  
At least 8 at Estero Mantagua on the Chile pre-cruise extension and was fairly common at Punta Arenas, with a few more in the marshes around Montevideo.
86. **White-rumped Sandpiper** *Calidris fuscicollis*  
A fairly common species around the lakes near Punta Arenas and also at Montevideo.
87. **Pectoral Sandpiper** *Calidris melanotos*  
Seen on each of the 3 days at Ceibas.
88. **Pantanal Snipe** *Gallinago paraguaiæ*  
Fairly common in small numbers at Ceibas and seen on each of our 3 days at that amazing site.
89. **Magellanic Snipe** *Gallinago magellanica*  
Just a couple seen during the Chile pre-cruise extension.
90. **Red Phalarope** *Phalaropus fulicarius*  
We saw 100's during our day's sailing towards Puerto Montt, a few more in the Strait of Magellan, and yet more near Punta Arenas.
91. **Solitary Sandpiper** *Tringa solitaria cinnamomea*  
Single bird seen at Ceibas.
92. **Lesser Yellowlegs** *Tringa flavipes*  
Seen in small numbers during the pre-cruise extension, Montevideo and Ceibas.
93. **Greater Yellowlegs** *Tringa melanoleuca*  
2 seen during the pre-cruise extension, and also seen at Montevideo and at Ceibas.
94. **Black Skimmer** *Rynchops niger*  
Only seen around the lakes outside of Montevideo, Uruguay.
95. **Brown-hooded Gull** *Chroicocephalus maculipennis*  
Common.
96. **Grey-headed Gull** *Chroicocephalus cirrocephalus cirrocephalus*  
Sightings from Puerto Madryn and Montevideo.
97. **Dolphin Gull** *Leucophaeus scoresbii*  
Our first stunners were in Punta Arenas port, followed by plenty more around Ushuaia.
98. **Franklin's Gull** *Leucophaeus pipixcan*  
Only seen during the Chile pre-cruise extension, with approx. 100 loafing on a at Reñaca.
99. **Grey Gull** *Leucophaeus modestus*  
We got lucky finding a roosting flock of around 30 tucked into the rocks at Reñaca during the pre-cruise extension.
100. **Kelp Gull** *Larus dominicanus dominicanus*  
Common and seen on 8 dates.
101. **Royal Tern** *Thalasseus maximus*  
A few seen around Puerto Madryn and Montevideo.

102. **Elegant Tern** *Thalasseus elegans*  
Several present in San Antonio Harbour, as well as a few seen around Puerto Montt port.
103. **Cabot's Tern** *Thalasseus acutiflavus*  
Fairly common at Puerto Madryn and Montevideo.
104. **South American Tern** *Sterna hirundinacea*  
Fairly common and seen on 7 dates from Puerto Montt to Montevideo.
105. **Common Tern** *Sterna hirundo hirundo*  
3 spotted in a mixed tern roost along a beach of the Rio de La Plata near Montevideo.
106. **Snowy-crowned Tern** *Sterna trudeaui*  
Very nice views of several individuals near Montevideo.
107. **Inca Tern** *Larosterna inca*  
We saw a nice nesting colony near Cormorant Rock, Reñaca, Región Viña del Mar during the pre-cruise extension. And what stunning close views we were treated to!
108. **Chilean Skua** *Stercorarius chilensis*  
Fairly common in small numbers, with sightings from Puerto Montt, Región de los Lagos to the Falkland Islands.
109. **Brown Skua** *Stercorarius antarcticus*  
A fairly common sighting from Cape Horn to Puerto Madryn.
110. **Pomarine Jaeger** *Stercorarius pomarinus*  
Single at sea off Puerto Montt, Chile, followed by at least 2 as we sailed away from Puerto Madryn.
111. **Long-tailed Jaeger** *Stercorarius longicaudus pallescens*  
Single bird flew alongside the ship as we sailed beside the Valdes Peninsula and out to sea.
112. **Parasitic Jaeger** *Stercorarius parasiticus*  
Single as we left San Antonio port, with at least 3 more as we left Puerto Madryn and headed out to sea.
113. **King Penguin** *Aptenodytes patagonicus*  
We were lucky to find an adult stood on the shoreline as we approached Ushuaia.
114. **Humboldt Penguin** *Spheniscus humboldti*  
2 seen by David T in San Antonio Harbour.
115. **Magellanic Penguin** *Spheniscus magellanicus*  
A pretty common species from Puerto Montt, Región de los Lagos to north of the Valdes Peninsula.
116. **Fuegian (Wilson's) Storm Petrel** *Oceanites oceanicus chilensis*  
This seabird was incredibly common, with 100's seen on many days at sea. We even had a bird land on deck where it rested for a while before flying off!
117. **Pincoya Storm Petrel** *Oceanites pincoyae*  
We saw at least 8 as we sailed from Puerto Montt, Región de los Lagos on 21.2, This is an incredibly rare seabird and one of the highlights of the tour.
118. **Grey-backed Storm Petrel** *Garrodia nereis*  
2 seen during our full day at sea between Puerto Montt and Amalia Glacier.

119. **White-faced Storm Petrel** *Pelagodroma marina*  
A couple seen on our first full day's sailing from San Antonio and then 2 more seen around the same time the previous species was spotted at sea – that was quite some day!
120. **White-bellied Storm Petrel** *Fregetta grallaria segethi*  
2 seen quite well during our full day's sailing between San Antonio and Puerto Montt. The first few days of this cruise we exceptional!
121. **Black-bellied Storm Petrel** *Fregetta tropica tropica*  
Single bird in waters off Cape Horn, Región de Magallanes.
122. **Wandering Albatross** *Diomedea exulans*  
This is the bird everyone wants to see. And what views we had, with some very close birds flying right in front of the ship. Our viewpoint on the bow provided a superb vantage point for seawatching. Seen on at least 4 dates, we saw over 50 on our full days at sea off the Chile coast.
123. **Antipodean Albatross** *Diomedea antipodensis antipodensis*  
Just 2 definite sightings at sea 22.2
124. **Southern Royal Albatross** *Diomedea epomophora*  
The most common large albatross and seen on 5 dates, with numbers exceeding 150 individuals on some days.
125. **Northern Royal Albatross** *Diomedea sanfordi*  
A common sighting during our full day's sailings on 20.2 and 22.2
126. **Sooty Albatross** *Phoebastria fusca*  
1 seen as we sailed north from Cape Horn, Región de Magallanes 26.2 was a surprise.
127. **Black-browed Albatross** *Thalassarche melanophris*  
Abundant and seen on 12 dates. This species was practically on view the entire time of our cruise!
128. **Chatham Albatross** *Thalassarche eremita*  
1 seen well about an hour's sailing south from San Antonio Harbour
129. **Salvin's Albatross** *Thalassarche salvini*  
Fairly common sighting between San Antonio and Amalia Glacier.
130. **Grey-headed Albatross** *Thalassarche chrysostoma*  
Fairly common during our first full day at sea, with several more around Cape Horn, Región de Magallanes.
131. **Atlantic Yellow-nosed Albatross** *Thalassarche chlororhynchos*  
At least 2 definites seen as we sailed from Puerto Madryn towards Montevideo, but they made us wait and were not seen until late afternoon.
132. **Buller's Albatross** *Thalassarche bulleri platei*  
Fairly common albatross as we sailed south from San Antonio port on 19.2 and reasonably common during our first full day at sea on 20.2
133. **Southern Giant Petrel** *Macronectes giganteus*  
Another common seabird and seen on 8 dates. We often had a few cruising right next to us allowing stunning views.
134. **Northern Giant Petrel** *Macronectes halli*  
Not as common as the previous species but seen on 5 dates and again, we enjoyed great views.

135. **Southern Fulmar** *Fulmarus glacialisoides*  
Single observed in Straits of Magellan as we sailed towards Ushuaia.
136. **Cape Petrel** *Daption capense capense*  
2 near Cape Horn, Región de Magallanes were the only ones seen.
137. **Blue Petrel** *Halobaena caerulea*  
1 seen reasonably well as we sailed around the Falkland Islands.
138. **Slender-billed Prion** *Pachyptila belcheri*  
Our first were seen as we entered the Strait of Magellan, Región de Magallanes and there were further sightings as we sailed around the Falkland Islands.
139. **White-headed Petrel** *Pterodroma lessonii*  
This first for Chile lingered off the bow of the ship in heavy seas as we reached open water, after viewing the stunning Amalia Glacier on 23.2
140. **Atlantic Petrel** *Pterodroma incerta*  
1 seen by Nick north of the Falkland Islands.
141. **Grey Petrel** *Procellaria cinerea*  
Seen by a few lucky observers during the full day at sea before reaching Puerto Madryn.
142. **Soft-plumaged Petrel** *Pterodroma mollis*  
This species was ever present as sailed north from the Falkland Islands on 27.2
143. **Juan Fernandez Petrel** *Pterodroma externa*  
A reasonably common sighting during the first two full day's sailing south from San Antonio and we couldn't have asked for better views.
144. **Masatierra Petrel** *Pterodroma defilippiana*  
Our cruise started well with our discovery of a bird resting on one of the top decks whilst we were still in San Antonio port! During the rest of the day at sea and on 20.2 we saw several of these pale-looking *pterodromas*.
145. **Stejneger's Petrel** *Pterodroma longirostris*  
Seen incredibly well as we sailed south along the Chilean coast, with over 50 seen on some days. What a bird!
146. **White-chinned Petrel** *Procellaria aequinoctialis*  
Abundant and seen on 9 dates in huge numbers on some days.
147. **Westland Petrel** *Procellaria westlandica*  
Not as common as the previous species but was seen on 5 dates.
148. **Sooty Shearwater** *Ardenna grisea*  
Another abundant seabird and seen on most days whilst sailing.
149. **Pink-footed Shearwater** *Ardenna creatopus*  
One of the first seabirds as we left San Antonio port and subsequently seen on 5 dates. We could look down on rafts of this species and hear the 'pitter patter' of their feet as they struggled to take off in calmer seas.
150. **Great Shearwater** *Ardenna gravis*  
Abundant around the Falkland Islands and as we sailed north, with a steady passage numbering several hundred per hour from Valdes Peninsula towards Montevideo.
151. **Manx Shearwater** *Puffinus puffinus puffinus*  
2 at sea 19.2, 3 at sea 20.2, 1 at sea 22.2, fairly common Valdes Peninsula 1.3 and fairly common at sea 2.3

152. **Subantarctic Shearwater** *Puffinus elegans*  
1 seen by Nick and Dan as we sailed north from the Falkland Islands.
153. **Peruvian Diving Petrel** *Pelecanoides garnotii*  
1 seen just by Keith as we left San Antonio harbour.
154. **Magellanic Diving Petrel** *Pelecanoides magellani*  
Just a few seen well, mainly along the Strait of Magellan,
155. **Common Diving Petrel** *Pelecanoides urinatrix coppingeri*  
We eventually had decent views around Cape Horn, with further sightings at a few other sites.
156. **Magnificent Frigatebird** *Fregata magnificens rothschildi*  
3 at Montevideo were something of a rarity there.
157. **Peruvian Booby** *Sula variegata*  
Fairly common Cormorant Rock, Reñaca, Región Viña del Mar during the pre-cruise extension.
158. **Red-legged Cormorant** *Poikilocarbo gaimardi*  
Up to 3 seen at Reñaca during the pre-cruise extension.
159. **Neotropic Cormorant** *Nannopterum brasilianum*  
Fairly common at a number of localities and seen on 7 dates.
160. **Rock Shag** *Leucocarbo magellanicus*  
Nice views at Punta Arenas, Ushuaia and in Puerto Madryn.
161. **Guanay Cormorant** *Leucocarbo bouganvillii*  
Several seen at Reñaca during the Chile pre-cruise extension, plus a few in San Antonio harbour.
162. **Imperial Shag** *Leucocarbo atriceps*  
Good numbers seen from Puerto Montt and all along the Chilean coast to Ushuaia, plus a few at Puerto Madryn.
163. **Black-faced Ibis** *Theristicus melanopis*  
Small numbers seen in Puerto Montt, Punta Arenas and in Tierra del Fuego NP.
164. **Bare-faced Ibis** *Phimosus infuscatus*  
First seen in Montevideo, followed by plenty more sightings at Ceibas.
165. **White-faced Ibis** *Plegadis chihi*  
A few seen in Montevideo were our first, followed by daily sightings at Ceibas during the post-cruise extension.
166. **Roseate Spoonbill** *Platalea ajaja*  
A daily sighting in small numbers at Ceibas.
167. **Rufescent Tiger Heron** *Tigrisoma lineatum*  
Our first at Montevideo showed really well, and there were subsequent sightings at Costanera Sur and Ceibas.
168. **Black-crowned Night Heron** *Nycticorax nycticorax*  
A sprinkling of sightings at Punta Arenas, Ushuaia and Puerto Madryn.
169. **Striated Heron** *Butorides striata*  
Single in Montevideo.
170. **Western Cattle Egret** *Bubulcus ibis*  
Sightings from Montevideo and Ceibas.
171. **Cocoi Heron** *Ardea cocoi*  
A few were seen in Montevideo, followed by daily sightings in small numbers at Ceibas.

172. **Great Egret** *Ardea alba egretta*  
Small numbers in Montevideo and Ceibas.
173. **Whistling Heron** *Syrigma sibilatrix*  
Just a few seen in Montevideo and Ceibas.
174. **Snowy Egret** *Egretta thula*  
Fairly common in small numbers and seen on 5 dates.
175. **Peruvian Pelican** *Pelecanus thagus*  
A few at Reñaca during the Chile pre-cruise extension, followed by another couple at Puerto Montt.
176. **Andean Condor** *Vultur gryphus*  
We came across a massive congregation feeding on a carcass on a distant hillside in the El Yeso Valley, with over 50 individuals present. There were some really nice flight views right over our heads in the Farellones, plus a group of 6 sat on a rock in the Strait of Magellan as we sailed towards Ushuaia.
177. **Black Vulture** *Coragyps atratus*  
Fairly common and seen at a number of locations throughout the tour.
178. **Turkey Vulture** *Cathartes aura*  
Fairly common and seen on a number of days.
179. **Long-winged Harrier** *Circus buffoni*  
1 flew high over Costanera Sur, with a further 3 sightings at Ceibas – what a bird!
180. **Savanna Hawk** *Buteogallus meridionalis*  
A daily sighting at Ceibas during the post-cruise extension.
181. **Roadside Hawk** *Rupornis magnirostris*  
The only sighting during the main cruise was near Montevideo, followed by daily sightings at Ceibas.
182. **Harris's Hawk** *Parabuteo unicinctus unicinctus*  
2 Valdes Peninsula 1.3 and 1 Ceibas 5.3
183. **Variable Hawk** *Geranoaetus polyosoma*  
Seen in the El Yeso Valley, Farellones, and near Valdes Peninsula.
184. **Black-chested Buzzard-Eagle** *Geranoaetus melanoleucus*  
Only seen during the pre-cruise extension in the El Yeso Valley and Farellones.
185. **White-throated Hawk** *Buteo albigula*  
Something of a surprise to see one fly into trees right next to our lunch stop during our excellent day at Farellones during the pre-cruise extension.
186. **Burrowing Owl** *Athene cunicularia*  
A few seen around Puerto Madryn, Montevideo and Ceibas.
187. **Ferruginous Pygmy Owl** *Glaucidium brasilianum stranecki*  
Just the one seen at Ceibas.
188. **Tropical Screech Owl** *Megascops choliba*  
Nice views behind our lodge at Ceibas.
189. **Green Kingfisher** *Chloroceryle americana*  
Singles from Montevideo, Costanera Sur and Ceibas.
190. **White-barred Piculet** *Picumnus cirratus*  
A couple nice views from Ceibas.
191. **White Woodpecker** *Melanerpes candidus*  
Single distantly at Montevideo followed by a pair at Ceibas.

192. **White-fronted Woodpecker** *Melanerpes cactorum*  
Daily sighting at Ceibas.
193. **Checkered Woodpecker** *Veniliornis mixtus*  
A few seen at Ceibas, with a resident pair in the gardens of the lodge showing particularly well.
194. **Striped Woodpecker** *Veniliornis lignarius*  
1 La Campana NP, Región de Valparaíso 19.2
195. **Green-barred Woodpecker** *Colaptes melanochloros*  
Pair seen well at Ceibas.
196. **Chilean Flicker** *Colaptes pitius* HO  
1 heard Valle Nevado, Región Metropolitana.
197. **Campo Flicker** *Colaptes campestris campestroides*  
A pair seen well at Ceibas.
198. **Mountain Caracara** *Phalcoboenus megalopterus*  
5 at Farellones was the only sighting.
199. **White-throated Caracara** *Phalcoboenus albogularis*  
A visit to the rubbish dump near Ushuaia provided scope views of a single bird.
200. **Crested Caracara** *Caracara plancus plancus*  
A fairly common sighting and seen most days whilst we were ashore.
201. **Chimango Caracara** *Milvago chimango*  
Common and seen very well on a number of occasions.
202. **American Kestrel** *Falco sparverius*  
Fairly common during the Chile pre-cruise extension, with further sightings near the Valdes Peninsula and at Ceibas.
203. **Aplomado Falcon** *Falco femoralis*  
2 flying over the ski resort at the top of the Farellones, with a single bird in the Patagonian Steppe near Punta Arenas.
204. **Mountain Parakeet** *Psilopsiagon aurifrons*  
We had a couple flocks totalling around 12 birds late in the day at El Yeso during the pre-cruise extension.
205. **Monk Parakeet** *Myiopsitta monachus cotorra*  
Fairly common sighting around Montevideo and also seen on both pre and post cruise extensions.
206. **Slender-billed Parakeet** *Enicognathus leptorhynchus*  
2 Puerto Montt, Región de los Lagos.
207. **Nanday Parakeet** *Aratinga nenday*  
5 flew over Costanera Sur.
208. **White-eyed Parakeet** *Psittacara leucophthalmus leucophthalmus*  
Fairly common around Costanera Sur.
209. **Common Miner** *Geositta cunicularia*  
2 seen well near Punta Arenas.
210. **Rufous-banded Miner** *Geositta rufipennis*  
Fairly common in the El Yeso Valley and at Farellones, with some exceptionally confiding birds that were almost too close to photograph.
211. **Creamy-rumped Miner** *Geositta isabellina*  
Dan saw this species during our day at Farellones, Región Metropolitana.

212. **Scimitar-billed Woodcreeper** *Drymornis bridgesii*  
We were treated to a couple nice views of this cracker at Ceibas.
213. **Narrow-billed Woodcreeper** *Lepidocolaptes angustirostris*  
Sightings from Montevideo and Ceibas.
214. **White-throated Treerunner** *Pygarrhichas albogularis*  
Fairly common at Puerto Montt and Tierra del Fuego NP.
215. **Crag Chilia** *Ochetorhynchus melanurus* **Endemic**  
We had a couple nice sightings in the El Yeso valley during the pre-cruise extension on 17.2
216. **Rufous Hornero** *Furnarius rufus*  
Fairly common sighting from Valdes Peninsula, Montevideo and Ceibas
217. **Wren-like Rushbird** *Phleocryptes melanops*  
Seen at Estero Mantagua 19.2 and Montevideo 3.3
218. **Curve-billed Reedhaunter** *Limnornis curvirostris*  
One of the post-cruise highlights from the marshland at Ceibas.
219. **Scale-throated Earthcreeper** *Upucerthia dumetaria*  
2 Farellones, 2 Punta Arenas and 1 Puerto Madryn.
220. **Buff-winged Cinclodes** *Cinclodes fuscus*  
2 at El Yeso Valley.
221. **Dark-bellied Cinclodes** *Cinclodes patagonicus*  
2 in the El Yeso Valley and 3 Punta Arenas.
222. **Chilean Seaside Cinclodes** *Cinclodes nigrofumosus* **Endemic**  
We enjoyed some really nice views of this Chilean endemic on the rocky shoreline at Reñaca.
223. **Thorn-tailed Rayadito** *Aphrastura spinicauda*  
We saw a few at Puerto Montt, followed by a very close sighting in Tierra del Fuego NP.
224. **Des Murs's Wiretail** *Sylviorthorhynchus desmursii*  
Just a couple at Puerto Montt. Not an easy species to see well at all.
225. **Tufted Tit-Spinetail** *Leptasthenura platensis*  
3 at Farellones followed by a couple of sightings at Ceibas.
226. **Plain-mantled Tit-Spinetail** *Leptasthenura aegithaloides*  
Seen well during the Chile pre-cruise extension and again near the Valdes Peninsula during our excellent day from Puerto Madryn.
227. **Little Thornbird** *Phacellodomus sibilatrix*  
Only seen at Ceibas.
228. **Freckle-breasted Thornbird** *Phacellodomus striaticollis*  
Sightings from Montevideo and Ceibas
229. **Firewood-gatherer** *Anumbius annumbi*  
A nice sighting from Ceibas of a bird with a nest in a pylon beside the road.
230. **Lark-like Brushrunner** *Coryphistera alaudina alaudina*  
One of the highlights from our post-cruise extension to Ceibas. Seen on a couple of days but never close enough for a photo.
231. **Short-billed Canastero** *Asthenes baeri baeri*  
A pair seen well at Ceibas on a couple of occasions.
232. **Cordilleran Canastero** *Asthenes modesta*  
2 showed well at Farellones.

233. **Sharp-billed Canastero** *Asthenes pyrrholeuca pyrrholeuca*  
Eventually found a pair at Farellones, which after a bit of a runaround showed well in low scrub.
234. **Sulphur-bearded Reedhaunter** *Limnortyx sulphuriferus*  
Single skulker eventually gave reasonable views at Ceibas.
235. **Stripe-crowned Spinetail** *Cranioleuca pyrrhophia pyrrhophia*  
A fairly common species from Ceibas.
236. **Dusky-tailed Canastero** *Pseudasthenes humicola*  
Single from La Campana NP, Región de Valparaíso.
237. **Patagonian Canastero** *Pseudasthenes patagonica* **Endemic**  
One of the last species we saw on a headland south of Puerto Madryn.
238. **Brown Cacholote** *Pseudoseisura lophotes argentina*  
Fairly common species with daily sightings at Ceibas.
239. **White-throated Cacholote** *Pseudoseisura gutturalis gutturalis* **Endemic**  
1 Valdes Peninsula 1.3
240. **Yellow-chinned Spinetail** *Certhiaxis cinnamomeus russeolus*  
Seen at Ceibas on a couple of occasions.
241. **Chotoy Spinetail** *Schoeniophylax phryganophilus phryganophilus*  
Fairly common sighting from Ceibas.
242. **Pale-breasted Spinetail** *Synallaxis albescens*  
Nice looks at a bird beside the road at Ceibas.
243. **Sooty-fronted Spinetail** *Synallaxis frontalis*  
Seen a few times at Ceibas.
244. **Rufous-capped Antshrike** *Thamnophilus ruficapillus*  
Sightings from Montevideo and Ceibas.
245. **Black-throated Huet-huet** *Pterotochos tarnii*  
A few of us saw this beast at Puerto Montt, but it wasn't easy!
246. **Moustached Turca** *Pterotochos megapodius* **Endemic**  
One of the highlights of the Chile pre-cruise extension and we enjoyed incredible views of this amazing species.
247. **Chuca Tapaculo** *Scelorchilus rubecula*  
Very nice views at Puerto Montt of a couple individuals.
248. **Chilean Elaenia** *Elaenia chilensis*  
Seen around Santiago, Puerto Montt and Tierra del Fuego NP.
249. **Small-billed Elaenia** *Elaenia parvirostris*  
Pair seen at Montevideo, followed by daily sightings from Ceibas.
250. **Suiriri Flycatcher** *Suiriri suiriri suiriri*  
A couple of sightings from Ceibas.
251. **Tufted Tit-Tyrant** *Anairetes parulus*  
A few seen at La Campana NP, Región de Valparaíso, Puerto Montt, Región de los Lagos and Tierra del Fuego NP.
252. **Sooty Tyrannulet** *Serpophaga nigricans*  
Singles from Montevideo and Ceibas.
253. **White-crested Tyrannulet** *Serpophaga subcristata subcristata*  
Reasonably common around Montevideo and Ceibas.
254. **Warbling Doradito** *Pseudocolopteryx flaviventris*  
Great views on two days at Ceibas. What a confiding bird!

255. **Fulvous-crowned Scrub Tyrant** *Euscarthmus meloryphus meloryphus*  
A single bird skulking beside the roadside at Ceibas.
256. **Bran-colored Flycatcher** *Myiophobus fasciatus auriceps*  
Only seen at Ceibas.
257. **Many-colored Rush Tyrant** *Tachuris rubrigastra*  
Just the one sighting from Estero Mantagua during the Chile pre-cruise extension. We did look for it near Puerto Madryn as well but he wasn't at home!
258. **Scarlet Flycatcher** *Pyrocephalus rubinus*  
Fairly common species with numerous sightings from Ceibas.
259. **Spot-billed Ground Tyrant** *Muscisaxicola maculirostris maculirostris*  
We saw at least 5 birds during our day at Farellones.
260. **White-browed Ground Tyrant** *Muscisaxicola albilora*  
Fairly common species in El Yeso Valley and Farellones.
261. **Austral Negrito** *Lessonia rufa*  
A few seen at Estero Mantagua, Punta Arenas and Montevideo.
262. **Spectacled Tyrant** *Hymenops perspicillatus*  
First seen during the pre-cruise extension, we had nice views at Montevideo followed by daily sightings at Ceibas.
263. **White Monjita** *Xolmis irupero irupero*  
Single at Montevideo and fairly common at Ceibas.
264. **Rusty-backed Monjita** *Neoxolmis rubetra*  
A small flock of approx. 6-8 individuals seen amidst the vast Patagonian steppe south of Puerto Madryn.
265. **Fire-eyed Diucon** *Pyrope pyrope pyrope*  
Sightings from Santiago, Puerto Montt and Tierra del Fuego National Park.
266. **Grey Monjita** *Nengetus cinereus cinereus*  
Just the one sighting from our fantastic day around Montevideo.
267. **Chocolate-vented Tyrant** *Neoxolmis rufiventris*  
Dan saw this species at Punta Arenas, but everyone caught up with it during our excellent day from Puerto Madryn.
268. **Black-billed Shrike-Tyrant** *Agriornis montanus*  
We enjoyed very close views during the Chile pre-cruise extension.
269. **Great Shrike-Tyrant** *Agriornis lividus*  
A single sighting at Farellones, whilst watching the previous species!
270. **Cattle Tyrant** *Machetornis rixosa rixosa*  
Common at Ceibas.
271. **Great Kiskadee** *Pitangus sulphuratus argentinus*  
Sightings from Puerto Madryn, Montevideo, Costanera Sur and Ceibas.
272. **Streaked Flycatcher** *Myiodynastes maculatus solitarius* HO  
Heard only at Costanera Sur.
273. **Crowned Slaty Flycatcher** *Griseotyrannus aurantioatrocristatus*  
Two birds seen at Ceibas.
274. **Tropical Kingbird** *Tyrannus melancholicus melancholicus*  
Fairly common from Montevideo to Ceibas.

275. **Fork-tailed Flycatcher** *Tyrannus savana savana*  
Our first were seen well at Montevideo followed by some really nice view from Ceibas, where it was a daily sighting.
276. **Rufous-tailed Plantcutter** *Phytotoma rara*  
A few seen well in the El Yeso Valley, Farellones, and Estero Mantagua.
277. **White-tipped Plantcutter** *Phytotoma rutila*  
One lucky sighting from Ceibas of a lingering individual.
278. **White-naped Xenopsaris** *Xenopsaris albinucha albinucha*  
Single observed from Ceibas was the only sighting.
279. **White-winged Becard** *Pachyramphus polychopterus spixii*  
A pair at Ceibas proved tricky to see well.
280. **White-rumped Swallow** *Tachycineta leucorrhoa*  
Fairly common species at Ceibas.
281. **Chilean Swallow** *Tachycineta leucopyga*  
Sightings from Santiago area, Puerto Montt, Punta Arenas and Valdes Peninsula.
282. **Blue-and-white Swallow** *Pygochelidon cyanoleuca*  
Common and seen on 5 dates.
283. **Brown-chested Martin** *Progne tapera fusca*  
Fairly common species from Valdes Peninsula, Montevideo and Ceibas.
284. **Southern Martin** *Progne elegans*  
Two seen near Puerto Madryn.
285. **Grey-breasted Martin** *Progne chalybea*  
At least 6 seen at Ceibas on 6.3
286. **Barn Swallow** *Hirundo rustica erythrogaster*  
Our only sighting was from Estero Mantagua of a couple birds.
287. **American Cliff Swallow** *Petrochelidon pyrrhonota pyrrhonota*  
Pair at Ceibas on 6.3
288. **House Wren** *Troglodytes aedon*  
A few seen during most shore excursions.
289. **Masked Gnatcatcher** *Polioptila dumicola dumicola*  
Seen frequently at Montevideo, Costanera Sur and Ceibas.
290. **Chilean Mockingbird** *Mimus thenca*  
Fairly common species in the lower parts of Farellones and at La Campana NP, Región de Valparaíso.
291. **Chalk-browed Mockingbird** *Mimus saturninus modulator*  
Fairly common species from Puerto Madryn to Ceibas.
292. **Patagonian Mockingbird** *Mimus patagonicus*  
At least 2 were scoped near the Valdes Peninsula. A few more drive-by sightings as we headed south towards Trelew.
293. **Common Starling** *Sturnus vulgaris vulgaris*  
Fairly common towards the end of the cruise.
294. **Chiguanco Thrush** *Turdus chiguanco*  
A single scoped at the Valdes Peninsula was a good sighting.
295. **Austral Thrush** *Turdus falcklandii magellanicus*  
Sightings from around Santiago, Puerto Montt, Ushuaia and Puerto Madryn.

296. **Creamy-bellied Thrush** *Turdus amaurochalinus*  
Fairly common species at Montevideo and Ceibas.
297. **Rufous-bellied Thrush** *Turdus rufiventris rufiventris*  
3 Costanera Sur and just a couple at Ceibas.
298. **House Sparrow** *Passer domesticus domesticus*  
Common.
299. **Yellowish Pipit** *Anthus chii chii*  
We enjoyed some nice views during the post-cruise extension at Ceibas.
300. **Correndera Pipit** *Anthus correndera*  
8 individuals during our day out from Punta Arenas.
301. **Hellmayr's Pipit** *Anthus hellmayri*  
Single bird seen by all at Puerto Madryn.
302. **Black-chinned Siskin** *Spinus barbatus*  
Fairly common species with multiple sightings from Farellones, La Campana NP and Montevideo.
303. **Hooded Siskin** *Spinus magellanicus magellanicus*  
Another fairly common species with nice views of several groups at Montevideo and Ceibas.
304. **Yellow-rumped Siskin** *Spinus uropygialis*  
A small group of approx. 5 birds from the El Yeso Valley.
305. **Grassland Sparrow** *Ammodramus humeralis xanthornus*  
Scope views of a couple birds from Ceibas.
306. **Rufous-collared Sparrow** *Zonotrichia capensis*  
Common at most sites visited.
307. **White-browed Blackbird** *Leistes superciliaris*  
Just the one sighting from Ceibas.
308. **Long-tailed Meadowlark** *Leistes loyca*  
Seen a few times during the pre-cruise extension, as well as Puerto Madryn.
309. **Variable Oriole** *Icterus pyrrhopterus pyrrhopterus*  
A few seen well at Montevideo and Ceibas.
310. **Screaming Cowbird** *Molothrus rufoaxillaris*  
Our first were near Montevideo but it was a fairly common species at Ceibas.
311. **Shiny Cowbird** *Molothrus bonariensis bonariensis*  
Sightings from Puerto Madryn, Buenos Aires and Ceibas.
312. **Austral Blackbird** *Curaeus curaeus*  
We saw several large flocks in the Andes during the Chile pre-cruise extension, with some more around Puerto Montt, Región de los Lagos.
313. **Greyish Baywing** *Agelaioides badius*  
Fairly common species around Montevideo and Ceibas.
314. **Yellow-winged Blackbird** *Agelasticus thilius*  
Common species with sightings from marshy areas at Estero Mantagua, Puerto Madryn, Montevideo and Ceibas.
315. **Brown-and-yellow Marshbird** *Pseudoleistes virescens*  
One of the key targets from Ceibas, where it was fairly common.
316. **Southern Yellowthroat** *Geothlypis velata*  
Single at Montevideo with a few more seen well around the Ceibas area.

317. **Tropical Parula** *Setophaga pitiayumi pitiayumi*  
Single at Montevideo.
318. **Glaucous-blue Grosbeak** *Cyanoloxia glaucoerulea*  
We found a group of approx. 3 birds feeding beside and on a dirt track at Ceibas.
319. **Pampa Finch** *Embernagra platensis platensis*  
Our first were a little distant and too brief for some at Montevideo but fortunately this proved to be a fairly common species at Ceibas.
320. **Mourning Sierra Finch** *Rhopospina fruticeti*  
Fairly common in the higher reaches of the El Yeso Valley and Farellones. Also a few present near the Valdes Peninsula during the main cruise.
321. **Band-tailed Sierra Finch** *Porphyrospiza alaudina*  
5 seen well at Farellones.
322. **Carbonated Sierra Finch** *Porphyrospiza carbonaria* **Endemic**  
A bonus sighting during our excellent day from Puerto Madryn.
323. **Bluish-grey Saltator** *Saltator coerulescens coerulescens*  
Just a single bird at Ceibas on our last day.
324. **Golden-billed Saltator** *Saltator aurantirostris parkesi*  
A few seen during our stay at Ceibas.
325. **Double-collared Seedeater** *Sporophila caerulescens caerulescens*  
The most common seedeater and usually a carrier species for others in the genus. Our first ones were around the marshes near Montevideo, and it was a daily sighting around Ceibas.
326. **Rusty-collared Seedeater** *Sporophila collaris melanocephala*  
A couple confiding birds at the first lake we visited near Montevideo. An absolute cracker!
327. **Dark-throated Seedeater** *Sporophila ruficollis*  
After a little work we had great scope views at a roadside marsh near Montevideo. Also seen well at Ceibas.
328. **Chestnut Seedeater** *Sporophila cinnamomea*  
Nice views in company with the previous species near Montevideo.
329. **Marsh Seedeater** *Sporophila palustris*  
A superb spot by our excellent local guide Lucas Marti, and exactly where he predicted it would be. A Ceibas speciality.
330. **Rufous-rumped Seedeater** *Sporophila hypochroma*  
Another excellent sighting at Ceibas. I think we were all astounded just how stunning seedeaters actually are!
331. **Black-and-rufous Warbling Finch** *Poospiza nigrorufa*  
Nice views at Montevideo and Ceibas in small numbers.
332. **Long-tailed Reed Finch** *Donacospiza albifrons*  
A couple in the tall vegetation near Montevideo.
333. **Black-capped Warbling Finch** *Microspingus melanoleucus*  
One or two were seen every day at Ceibas.
334. **Saffron Finch** *Sicalis flaveola pelzelni*  
Fairly common species around Montevideo and Ceibas.
335. **Grassland Yellow Finch** *Sicalis luteola luteiventris*  
Fairly common around Puerto Montt and Ceibas.

336. **Patagonian Yellow Finch** *Sicalis lebruni*  
Only seen at Punta Arenas in small numbers.
337. **Greater Yellow Finch** *Sicalis auriventris*  
Just a few seen in the 5 El Yeso Valley.
338. **Grey-hooded Sierra Finch** *Phrygilus gayi*  
Some nice views of this attractive species from El Yeso, Farellones, La Campana NP, and Punta Arenas.
339. **Patagonian Sierra Finch** *Phrygilus patagonicus*  
Some great views at Puerto Montt, plus a single bird at Tierra del Fuego NP.
340. **Plumbeous Sierra Finch** *Geospizopsis unicolor*  
5 in the El Yeso Valley.
341. **Blue-and-yellow Tanager** *Rauenia bonariensis bonariensis*  
Seen a couple of times at Ceibas.
342. **Diuca Finch** *Diuca diuca*  
Fairly common species at El Yeso, Farellones, La Campana NP and Puerto Madryn area.
343. **Red-crested Cardinal** *Paroaria coronata*  
Fairly common species around Montevideo and Ceibas.
344. **Yellow-billed Cardinal** *Paroaria capitata*  
Our first were at Costanera Sur and it was particularly common around Ceibas.
345. **Sayaca Tanager** *Thraupis sayaca*  
Seen daily at Ceibas.

## MAMMALS

- 1 **Argentine Gray Fox** *Lycalopex griseus domeykoanus*  
1 Valdes Peninsula on 1.3
- 2 **Culpeo** *Lycalopex culpaeus*  
1 seen very well at Tierra del Fuego NP on 25.2
- 3 **South American Fur Seal** *Arctocephalus australis*  
Fairly common at sea 22.2, fairly common Ushuaia 25.2 and fairly common Valdes Peninsula 1.3
- 4 **South American Sea Lion** *Otaria flavescens*  
Fairly common At sea 20.2
- 5 **Guanaco** *Lama guanicoe*  
Fairly common Valdes Peninsula 1.3
- 6 **Southern Right Whale** *Eubalaena australis*  
Fairly common at sea 28.2
- 7 **Sei Whale** *Balaenoptera borealis*  
3 at sea 22.2
- 8 **Humpback Whale** *Megaptera novaeangliae*  
Fairly common Ushuaia 25.2 and fairly common near the Falkland Islands 27.2
- 9 **Long-finned Pilot Whale** *Globicephala melas*  
First seen north of the Falkland Islands on 27.2 and several huge pods seen during our day at sea 28.2

- 10 **Peale's Dolphin** *Sagmatias australis*  
Fairly common around Falkland Islands 27.2 with more seen the following day 28.2
- 11 **Dusky Dolphin** *Sagmatias obscurus*  
A few seen at sea 2.3
- 12 **Bottlenose Dolphin** *Tursiops truncatus truncatus*  
Fairly common Cormorant Rock, Reñaca, Región Viña del Mar 19.2 and fairly common Puerto Montt, Región de los Lagos 21.2
- 13 **European Hare** *Lepus europaeus*  
Fairly common Valdes Peninsula 1.3
- 14 **European Rabbit** *Oryctolagus cuniculus*  
Fairly common Farellones, Región Metropolitana 18.2 and Punta Arenas 24.2
- 15 **Brazilian Guinea Pig** *Cavia aperea*  
Fairly common Ceibas
- 16 **Southern Mountain Cavy** *Microcavia australis*  
Fairly common around Puerto Madryn 1.3
- 17 **Southern Mountain Viscacha** *Lagidium viscacia*  
Fairly common Farellones, Región Metropolitana 18.2
- 18 **Coypu** *Myocastor coypus*  
Fairly common around Ceibas.
- 19 **Blue Shark** *Prionace glauca*  
During calm seas we saw a few around the ship, with one even visible from the main buffet restaurant 2.3
